V. Policy Details

SOMI complies with the Family Educational Rights and Privacy Act of 1974 (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) also known as the Buckley Amendment, governing student educational records. FERPA defines educational records (or personally identifiable information contained therein) as "those records, files, documents, and other materials which: i. contains information directly related to a student; and ii. are maintained by an educational agency or institution or by a person acting for such agency or institution." 20 U.S.C. § 1232g (a)(4)(A)(i) and (ii).

To be in compliance with FERPA, the School must:

- Notify students of their rights annually
- Protect student's rights to inspect and review their education records
- Protect student's rights to limit disclosure of personally identifiable information contained in education records
- Ensure that third parties do not disclose personally identifiable information (except under a few circumstances)
- Keep records of requests for and disclosures of student education records

When a student turns 18 years old or attends a postsecondary institution at any age, the student is then defined as an eligible student (herein referred to as student) and the rights under FERPA transfer from the parent to the student.

Student Rights Covered by FERPA Include:

The right to inspect and review their education records.

A student may submit a written request to the Office of Records & Registration identifying as precisely as possible the record(s) the student wishes to inspect. When a record contains information concerning more than one student, the requesting student may inspect and review only the records that relate to him or her. The Office of Records & Registration will inform the student when and where the records may be inspected. Records will be made available for review in a timely manner, not to exceed forty-five calendar days after the request has been received. Records may be reviewed in the presence of the Dean or the Dean's designate. The School/College is not required to permit a student to inspect and review records related to financial records; financial records of parents through the student financial aid file; records not considered education records, and confidential letters and confidential statements of recommendation if the student waived in writing his/her right to inspect and review those letters and statements.

The right to request the amendment of educational records.

If a student believes his/her record is inaccurate, misleading, or violates his/her rights and privacy, the student may submit a written request to the School/College official responsible for the record requesting an amendment to the record. The student must identify the part of the record he/she wants changed and why it is inaccurate, misleading or violates the student's rights and privacy. If the request for amendment is denied, the student will be notified in writing of the decision and of the student's right to a hearing regarding the request for amendment.

The right to limit disclosure of personally identifiable information contained in the student's education records except to the extent that FERPA authorizes disclosure without consent.

An exception which allows disclosure without consent is a disclosure to School/College officials with legitimate educational interests. A School/College official has legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. A School/College official is a person employed by the School/College in an administrative, supervisory, academic or research, or support staff position (including law enforcement, unit personnel, and health staff); a person or company with whom the School/College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another School/College official in performing his or her tasks. No "personally identifiable" information from the student's record will be disclosed without written consent, except where consent is not required. Consent is not required for:

- Authorized representatives of the U.S. Department of Education, Office of Inspector General, or state and local education authorities.
- The Department of Homeland Security (DHS); Immigrations and Customs Enforcement (ICE) for the purpose of complying with Request Form ICE relative to the School's/College's participation in The Student Exchange Visitor Information System (SEVIS).
- Military Recruiters who request Student Recruiting Information (Solomon Amendment), which includes name, address, telephone listing, age (or birth year), class level, major, degrees received and most recent educational institution of enrollment (some conditions exist).
- Authorized representatives of the Department of Veterans Affairs for students receiving educational assistance from the agency.
- Financial aid that the student applied for or received.
- Parents, if the student is a dependent of the parent as defined by the Internal Revenue Service.
- Compliance with a court order or subpoena.
- Compliance with state or federal laws mandating notification to certain individuals of the final result in disciplinary proceedings.
- Accrediting organizations to carry out their accrediting function.
- Anyone if a health or safety emergency exists and the information will assist in resolving the emergency.
- Directory information.
- Organizations conducting studies/audits concerning administration of student aid programs.
- Agents acting on behalf of the School/College such as Clearing Houses and degree/enrollment verifiers.
