Similar to a calculator in math class, AI should not take the place of original work intended to evaluate a student's ability to think critically and synthesize information. Any questions about the use of artificial intelligence should be addressed directly with course faculty.

Level 1:

In response to an alleged violation of any provision of this Policy, a faculty or staff member, within five (5) business days of becoming aware of the suspected violation, will investigate the allegation and meet with the involved student(s) individually to outline the allegation, allow the student(s) to provide their understanding of the incident(s), and discuss potential sanctions. Within three (3) business days of meeting with the involved student(s) the faculty/staff member will communicate their determination of the matter to the involved student(s) in writing. If it is determined that a violation occurred the faculty/staff member will document in summary the allegation, subsequent investigation, and student meeting, including any corrective plan of action, in a written report. The written report will be sent to the involved student(s) as well as to the Campus Director and Dean of Academic Affairs and will constitute a written warning. A copy of the report should also be sent to the Dean of Student Affairs. If it is determined that a violation did not occur, the involved student(s) will be notified in writing in the same timeframe (within three (3) business days).

Notwithstanding such reporting obligation, the faculty or staff member shall have the immediate right, where reasonably necessary in their discretion to preserve an appropriate learning environment and/or to protect the health and safety of the student or of others, to remove such student from the academic environment, from a clinical setting, or from any other School-related activity or function.

This decision is final and may not be appealed. The

letter is entered into the student’s official record and retained according to the records retention policy.

Decision standard – Decisions made under this policy are determined on a preponderance of the evidence. A preponderance of the evidence is evidence that shows the fact sought to be proved is more probable than not.

Note: In some instances, a violation of this Policy may impact a student’s progression in their program. Students who appeal a conduct matter may be permitted to progress to the next course/semester pending a final decision in their case or may be permitted to go on a standard period of non-enrollment. Those who progress are responsible for any tuition and fees associated with such progression and may be at risk of financial loss should their appeal be unsuccessful. A period of non-enrollment will impact the student’s anticipated date of graduation, even if successful on appeal.

Retaliation - SOMI has zero tolerance for retaliation against any individual who reports a suspected violation of any provision of this Policy in good faith. Incidents of retaliation violate this Policy and will be subject to disciplinary action.
