I. Mission, Vision and Values

This policy reflects our commitment to human dignity, integrity, compassion, stewardship, and service by guiding decisions and actions that uphold respect for all individuals and promote excellence in our work.

This policy aligns with our mission of extending the compassionate ministry of Jesus by improving the health and well-being of our communities and providing good help to those in need, especially the poor, dying, and underserved by ensuring that our practices support ethical, effective, and accountable service across all areas of the organization.

II. Policy

This policy sets forth the requirements, determining factors, and procedures governing student domestic and international travel in connection with authorized St. Mary's Hospital School of Medical Imaging (SOMI or "School") activities.

III. Purpose

SOMI is committed to providing students with learning experiences that encourage and enhance ongoing curricular outcomes, professional development, and civic engagement. As such, this policy defines authorized student institutional travel and delineates its associated procedures and guidelines including, but not limited to, travel approval, funding, and safety expectations. The types of activities and events covered by this policy include academically related travel, such as service-learning programs, meetings, conferences, experiential learning opportunities, and overnight activities where a student or students are attending/participating due to their institutional affiliation.

IV. Scope

This policy applies to all School students who are participating in School-related activities, including participation in a Student Organization and service on office/unit/department/School committees. Further,

the policy applies to student-involved travel that is financed, in whole or in part, with institutional funds. The policy will apply to all such travel throughout the calendar year. This policy does not apply to travel undertaken by students to any clinical site or other clinical experiences with non-BSMH entities. Travel undertaken by students in the context of their employment with Bon Secours Mercy Health (BSMH) or by School faculty or staff outside of the context of Travel Experiences is not covered by this policy and will be addressed consistent with policies that govern BSMH travel.

V. Policy Details

The school's academic programs, recognized student organizations, and other School offices or departments may require, offer, or coordinate sponsored student travel.

Co-curricular Travel

Compliance with School Policies and Travel Requirements

All confirmed travel participants assume risks associated with each Travel Experience. All associates and students participating in approved Travel Experiences are bound by all applicable SOMI policies, including ADM 3.05 Student Conduct Rights and Responsibilities.
